

All Are Children Of Mother Earth

This is a message from glomorum for the Sacred Healing Fire and Spring Equinox 2006. It compels all of us upon Mother Earth to honour our gifts with right action within our communities and upon our planet. May all be done in a good way.

As this Sacred Fire is lit and burns for 4 days and 3 nights, we sit with you and watch over you. We send our intent with yours so prayers may become reality.

We ask you to consider the following,

All are Children of Mother Earth. All are shone upon with the same Light. All are loved. As this Fire burns, may Divine Energy fill all beings and may all become at One with Divine Energy.

There is so much in your world yet so many live with so little. What are the lessons here and who is to learn them? That all present may open to the awareness of the need to share resources and take responsibility for each other.

Our gift to Spirit and to each other upon this planet is to reach our full capacity as humans and in so doing influence the evolution of the planet. It is our responsibility to Self and others to understand where one's energies and resources are of best use and how to use them.

There are many distractions in our worlds and in each being's path. May light fall upon the paths of each being among you that supports you to consider your path and worthy acts upon it.

What compelling differences are there because of my life upon the planet?

How have my gifts left positive impact upon the planet?

Upon those close to me?

Upon my own potential to fully live my life's purpose?

We ask many questions of you because we know that open and loving hearts are necessary for our fulfillment. May all the beauty of all that surrounds you and this lodge fill you with joy. May the love you feel for those close, open your hearts to unconditional love for all Brothers and Sisters.

Know that there is limitless capacity within this circle, among you to create what is needed and requested, The power of your intent combined with the energy of this Sacred Fire all help to release the intent and set this request in motion across the universe.

We are with you in Spirit. Your prayers are our prayers.

All in the Light.
